

PIENAAR ENERGY (PTY) LTD

120-foot Smart Photovoltaic Energy Storage Container Used at Japanese Drilling Site

Overview

The Mobil-Grid ® is an ISO-standard, CSC-approved maritime container that integrates a photovoltaic power plant, ready to be deployed and connected, with integrated control cell and batteries. LZY offers large, compact, transportable, and rapidly deployable solar storage containers for reliable energy anywhere. LZY mobile solar systems integrate foldable, high-efficiency panels into standard shipping containers to generate electricity through rapid deployment generating 20-200 kWp solar. That is why we have developed a mobile photovoltaic system with the aim of achieving maximum use of solar energy while at the same time being compact in design, easy to transport and quick to set up. Note: Specifications are subject to change without prior notice for product improvement. 2 GWh of installed containerized storage capacity nationwide, these modular systems address critical challenges in solar/wind power utilization and.
