

PIENAAR ENERGY (PTY) LTD

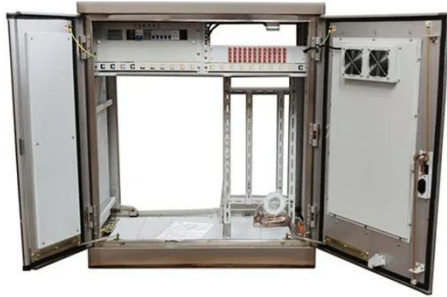

5MW Off-Grid Solar Containerized System Used in Togo s Wastewater Treatment Plant

Overview

The rural electrification programme called “CIZO” (sun in Togolese) aims at creating an enabling environment and the market to unlock private investment of Distributed Energy Service Companies (DESCOs) operating the pay-as-you-go (PAYGO) business model. In Togo, where renewable energy adoption is accelerating, customizable energy storage container houses offer a game-changing solution. These modular systems bridge gaps in grid reliability, support solar/wind integration, and empower industries to manage energy costs effectively. Pre-fabricated containerized solutions now account for approximately 35% of all new utility-scale storage deployments worldwide. North America leads with 40% market. and Renewable Energy Agency. Several companies, including BBOXX, EDF, and Sun King-Soleva, are actively working to promote universal access to electricity by developing innovative technologies and providing solar energy services to communities. In its first phase, the project. Major projects now deploy clusters of 20+ containers creating storage farms with 100+MWh capacity at costs below \$280/kWh.

5MW Off-Grid Solar Containerized System Used in Togo s Wastewater

Training for engineers and fitters at an off-grid PV plant in Togo

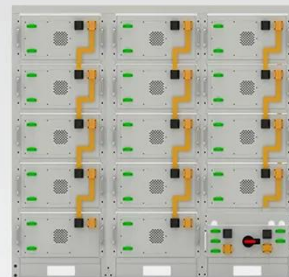

The off-grid PV-system in Togo with technology made in Germany does not only provide energy but also serves as a training center for local engineers and fitters

Togo sistema solar off grid

The CIZO project was launched by the Government of Togo in 2017 and aims to deploy 300,000 pay-as-you-go solar systems for households, electrify 1,000 health centres and provide 1,000 solar powered ...

Battery String-S224

- 1C Charge/Discharge
- Easy configuration and maintenance
- Power supply can be single battery string or parallel battery strings

Solar off grid Togo

ublic utility grid. These systems allow you to harness solar energy, convert it into electricity and store it for use, making it a sustainable and cost-effective
