

PIENAAR ENERGY (PTY) LTD

770ah energy storage battery

Overview

The Surrette Solar Battery 4 CS 17P is a high-quality deep-cycle battery, engineered for efficient and long-term energy storage in solar and renewable energy systems. With a 4V, 770 AHr capacity, it provides consistent and reliable power, ensuring optimized performance for off-grid. For the short blade energy storage-specific cells, in addition to the currently mass-produced 325Ah cell, SVOLT introduced a newly upgraded 350Ah cell and a 770Ah short blade energy storage cell with higher energy density and greater capacity. These new cells significantly enhance heat dissipation. Established in 2018 and headquartered in Jintan District, Changzhou City, Jiangsu Province, SVOLT Energy Technology Co. is specialized in the research and development, production, and sales of cells, modules, battery packs, as well as large-scale energy storage, unit energy storage. In the face of new energy storage safety challenges under low-cost competition, our latest dynamic energy storage thermal power separation technology has also made a stunning debut, with triple protection at the battery cell, PACK, and system levels according to vehicle grade standards. At this exhibition, Svolt exhibited its unique short knife energy storage battery series, VDA and soft pack energy storage battery, and other 9 batteries. Based on the 350Ah thermally compounded laminated battery. OUR EMERGENCY RESPONSE TEAM IS READY TO HELP! 888-813-5049 EXPERIENCING AN OUTAGE?
