About Our Company GEP was established in Afghanistan in 2020 as one of the leading investors in our rapidly growing country. Based on its R&D studies, Production Development and technological investments, and its innovation motto, GEP. holds ISO 14001, ISO 16949, ISO 9001, ISO 27001, ISO 50001, and OHSAS 18001. ome critical to meet our energy demands sustainably. The flow of energy is. Explore our comprehensive large-scale photovoltaic solutions including utility-scale power plants, custom folding solar containers, advanced inverters, and energy storage systems. However, without adequate storage, up to 30% of generated solar energy is wasted during peak production. Here's a snapshot of recent trends: While Afghanistan's energy storage. 1000kW / 2150kWh Containerized Energy Storage System is an end-to-end integrated high-capacity commercial, industrial, and utility market solution. Designed for peak shaving, load shifting, renewable integration, and backup power, the plug-and-play system combines advanced lithium iron phosphate. The air-cooled integrated energy storage cabinet adopts the "All in One" design concept, integrating long-life battery cells, efficient bi-directional balancing BMS, high-performance. Located in Meizhou City, Guangdong Province, the plant has an energy storage capacity of 140 MWh and deploys.
