

PIENAAR ENERGY (PTY) LTD

Albania large capacity energy storage battery

Overview

Well, Tirana's new 84MW/168MWh battery storage system – the largest in Southeast Europe – is flipping that script. Operational since February 2025, this \$73 million project stabilizes a grid where renewable energy penetration jumped from 12% to 34% in just three years [4]. Vega Solar and Indian company Sainik Industries – Getsun Power agreed to build the first lithium ion battery factory in Albania. It would have 100 MW in annual capacity. The energy transition implies vast solar and wind power capacity, but with energy storage systems that can keep unstable. As Europe's energy landscape evolves faster than a TikTok trend, Albania is stepping up with this 100-megawatt/400-megawatt-hour lithium-ion battery system, set to become operational by late 2026 [1]. This project isn't just about storing electrons – it's about rewriting the rules of energy. As Albania accelerates its transition to renewable energy, the Tirana Home Energy Storage Battery Production Plant represents a critical piece of the puzzle. Remember when "energy storage" meant stacking firewood?

The Tirana project laughs in the face of tradition.

Albania large capacity energy storage battery

Albania Centralized Energy Storage Project

Project launched in Albania for production of battery energy storage Vega Solar and Indian company Sainik Industries - Getsun Power agreed to build the first lithium ion battery factory in Albania.

Product Model
HJ-ESS-215A(100KW/215KWh)
HJ-ESS-115A(50KW 115KWh)

Dimensions
1600*1280*2200mm
1600*1200*2000mm

Rated Battery Capacity
215KWH/115KWH

Battery Cooling Method
Air Cooled/Liquid Cooled
