

PIENAAR ENERGY (PTY) LTD

Analysis of the Cost-Effectiveness of Ultra-Large Capacity Outdoor Energy Storage Cabinets

Overview

prepared as the result of work sponsored by the California Energy Commission. It does not necessarily represent. The battery storage technologies do not calculate levelized cost of energy (LCOE) or levelized cost of storage (LCOS) and so do not use financial assumptions. Therefore, all parameters are the same for the research and development (R&D) and Markets & Policies Financials cases. The program is organized. Neither the United States government nor any agency thereof, nor any of their employees, makes any warranty, express or implied, or assumes any legal liability or responsibility for the accuracy, completeness, or usefulness of any information, apparatus, product, or process disclosed, or represents. rt-term and long-term energy market needs. This paper highlights leading energy storage applications and practices in today's gas and electric energy delivery systems, with a particular focus on the role and attributes of the long-duration energy storage market segment.

Analysis of the Cost-Effectiveness of Ultra-Large Capacity Outdoor

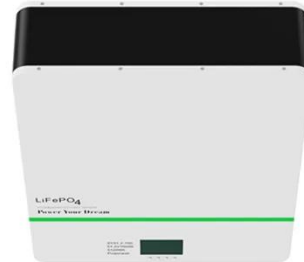

ATTACHMENT B: COST-EFFECTIVENESS OF FUTURE ...

The study findings are also used to estimate the aggregate net benefits of the planned 13.6 GW of energy storage portfolio identified in the CPUC's 2021 Preferred System Plan.
