

PIENAAR ENERGY (PTY) LTD

Argentina Energy Storage Project Budget

Overview

Argentina's first energy storage tender drew 1.347 GW of bids from 15 companies proposing 27 projects, exceeding the 500 MW target and representing more than \$1 billion in pledged investment. This isn't just about avoiding summer blackouts; it's a pivotal moment for Argentina's energy future, and a potential model for. Argentina has taken a major step toward modernizing its energy infrastructure with the launch of a 500 MW battery energy storage system (BESS) tender under the AlmaGBA program. Aimed at enhancing grid reliability in the metropolitan area of Buenos Aires (AMBA), this \$500 million initiative marks. The first large-scale battery energy storage tender in Argentina is catching the attention of the international community as an unequivocal step towards modernizing power infrastructure.
