PIENAAR ENERGY (PTY) LTD

# Australian photovoltaic bracket

## Overview

Meta Description: Discover the latest Australian photovoltaic bracket standards, including structural requirements, material specifications, and compliance strategies for solar installers. Learn how recent updates impact project timelines and ROI. Standards Australia has published a revision to AS/NZS 5033:2021, Installation and safety requirements for photovoltaic (PV) arrays. This advice alone does not constitute a fully definitive set of rules and should be read in. On Thursday, the 19th of May 2022, the new Solar Installation Standard (AS/NZS 5033:2021) became mandatory after a 6-month transition period. 1 for grid-connected energy systems.
