

PIENAAR ENERGY (PTY) LTD

Automatic inverter cabinetized type for highways

Overview

Utilize your vehicle's battery to efficiently power office equipment on the road or power tools at a work site. Includes a PV remote and 25-ft. The inverter from Bosch is a solution for commercial vehicles that fits to medium-duty and heavy-duty trucks, coaches, city buses and even special use cases. The inverter was developed with a specific focus on continuous performance, high reliability, and implementation of functional safety. Check each product page for other buying options. Shop products from small business brands sold in Amazon's store.

Automatic inverter cabinetized type for highways

Inverter for commercial vehicles

The inverter converts the direct current from the battery into the alternating current required by the electric motor. With its electronic control and monitoring of the electric motor, it ensures a safe and ...
