

PIENAAR ENERGY (PTY) LTD

Ballast type photovoltaic bracket manufacturer

Overview

Our photovoltaic ballasts have revolutionized the field of photovoltaic panel structures, and for more than a decade they have been the reference solution for all photovoltaic systems on flat roofs. Uniquely shaped for flat roofs. The made-in-the-USA BX System delivers superior power density and design flexibility to flat roof solar arrays. Made of a glass reinforced composite, the BX Chassis is engineered for extreme structural loading, yet is also shaped to be roof-friendly and easy to. Sun Ballast's racking solutions set the standard for a new generation of mounting systems, designed not only to simplify the work of professionals but also to provide the ideal balance of PSF, wind resistance, and energy performance for solar installations. The entire industrial supply chain - from. For more than a decade, the goal of Sun Ballast® has been to make the work of designers and installers of PV systems on flat roofs easier and faster: this is why simplicity and quick assembly have been the hallmark of all PV ballasts since 2012. Unique, innovative, and patented structures have. Our Solar Mounting Ballast system is specifically designed for ground conditions where a nonintrusive solution is essential.

Ballast type photovoltaic bracket manufacturer

Sun Ballast USA

Born from our passion for research and real-world innovation, our systems make installing photovoltaic systems on flat roofs faster, easier, and more secure than ever.
