## Overview

---

In a monumental leap for Zimbabwe's clean-tech ambitions, Verify Engineering (Pvt) Ltd, a state-owned enterprise under the Ministry of Higher and Tertiary Education, Innovation, Science, and Technology Development, has achieved a zero-failure rate on its lithium-ion batteries after a. In a monumental leap for Zimbabwe's clean-tech ambitions, Verify Engineering (Pvt) Ltd, a state-owned enterprise under the Ministry of Higher and Tertiary Education, Innovation, Science, and Technology Development, has achieved a zero-failure rate on its lithium-ion batteries after a. Recent reports, including a detailed article in The Herald, have rightfully placed a spotlight on the growing safety concerns surrounding lithium-ion batteries. With frequent load shedding and an unreliable grid, having a reliable battery storage system ensures solar energy is available whenever you need it, day or. The IRA Act and EU incentives have driven tremendous demand for EVs in America and Europe, triggering enhanced demand for rare earth metals and material sourcing in some of the world's remote and volatile locations. Mineral and metal supply chains are being reevaluated for their demand integrity as.
