

PIENAAR ENERGY (PTY) LTD

Brasilia exports solar modules

Overview

In 2024, Brazil imported \$2.62 billion FOB of PV equipment, with assembled modules making up 99%. Brazil's solar energy market is undergoing an extraordinary expansion. With over 35 GW of installed capacity and an anticipated R\$170 billion in new investments by 2026, the country presents a remarkable opportunity for entrepreneurs looking to enter the solar manufacturing sector. 6 GW of solar modules in the first half of 2025, down slightly year over year as developers rushed to secure shipments before an import tax hike, according to Greener. Despite this small drop, the solar industry has grown a lot, showing Brazil's dedication to clean energy and its. In the last five years, Brazil has increased its solar photovoltaic energy generating capacity by more than 6-fold. In 2020, the country's installed solar PV capacity stood at 8. By the end of 2024, this had grown to roughly 53 gigawatts. Introduced by the Ministry of Development, Industry, Trade and Services (MDIC) this week (12).
