

PIENAAR ENERGY (PTY) LTD

Brazil s top outdoor power supply brand

Overview

This is where Brazil mobile outdoor power supply systems become game-changers. With 68% of Brazilians engaging in outdoor activities like hiking through Chapada Diamantina's trails while keeping your GPS charged, or running a beachside food truck in Rio without worrying about power, SPS Power specializes in reliable power supply solutions, offering comprehensive services that ensure operational continuity and efficiency. Their focus on innovative technologies, including uninterruptible power supplies and stabilizers, directly addresses the need for critical energy solutions. Despite this, the market is fiercely competitive, and many businesses export internationally. Prowin Power was founded in 2013 and is headquartered in Shenzhen, China. Brazil presents a compelling opportunity due to its increasing demand for reliable, sustainable, and portable power. The Brazilian online market for outdoor power strips is characterized by a high degree of brand fragmentation, with a long tail of generic and local brands competing for share. However, a concentrated group of key competitors has emerged, primarily consisting of established global electronics brands.
