

**PIENAAR ENERGY (PTY) LTD**

# **Build a solar power station for mining**

 **LFP 280Ah C&I**

## Overview

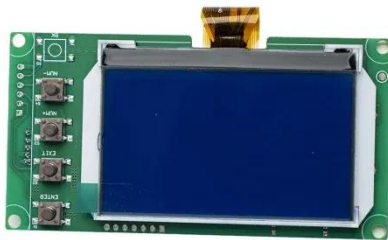

---

Utilizing solar energy for mining operations involves several critical strategies: 1. Assessing solar resource potential, 2. Implementing photovoltaic systems, 3. Integrating crypto mining with solar panels offers a sustainable and cost-effective alternative, combining profitability with environmental responsibility. u2028NEOSUN Energy has developed a tailored energy solutions that address these challenges. Once your setup is in place, the sunlight is free. This can increase your profit margin and lower. An emerging trend towards investment in decentralised on-site power sources at mine sites could increase exponentially as miners look to reduce costs and decarbonise their operations. Remember when crypto mining meant choosing between paying rent or your electricity bill?

Those days are officially over.
