

PIENAAR ENERGY (PTY) LTD

Bulgarian Solar System Batteries

Overview

In Bulgaria, the storage of solar energy in batteries is rapidly expanding, with private investors leading the initiative. Bulgarian solar power plant operator Sunterra RE added co-located energy storage to its operational portfolio. The company's three photovoltaic systems, with 524 MW in combined peak capacity, now also have batteries of 156 MW and 312 MWh in total. With the ongoing solar boom in Bulgaria, investors. The black asphalt shimmers with heat as the road winds through the dappled green of the ancient forests of Strandzha Nature Park, the largest protected area in Bulgaria. Nestled in the Strandzha Mountains near the Turkish border, the landscape here is both rugged and remote. Bulgarian renewables developer Sunterra RE has commissioned a 47 MW / 94 MWh battery energy storage system (BESS) at its Kaloyanovo solar power plant, near Plovdiv, in southern Bulgaria. The project consists of. In 2024, GSL ENERGY completed a 7.
