

**PIENAAR ENERGY (PTY) LTD**

# Cabinet solar energy for factories

## DISTRIBUTED PV GENERATION + ESS

## Overview

---

With 125kW AC output power and 261kWh battery capacity, this system is ideal for peak shaving, load shifting, backup power, and microgrid applications. ☐☐ Key Advantages for C&I Users This C&I BESS is designed to solve real industrial energy challenges: Peak shaving & demand. Looking to deploy an enterprise-grade ESS cabinet for commercial facilities, factories, EV charging, microgrids, or industrial parks?

Wenergy provides fully integrated, outdoor-rated ESS cabinets using LiFePO4 technology with modular design and robust safety architecture. Our solutions are. Solar system cabinets play a crucial role in the solar energy industry. They are designed to house and protect various components of a solar power system, such as inverters, charge controllers, batteries, and electrical connections. Unlike residential ESS units, these systems store hundreds of kWh to MWh of energy, supporting: In today's rapidly evolving energy landscape, Energy. SolaX C&I Energy Storage System is a high-efficiency solution for commercial and industrial use, offering both liquid and air cooling for optimal performance. As electricity prices rise and grid constraints increase, C&I.
