Can Egyptian BT modules be used for solar power generation and internet access

Overview

Scatec ASA, a Norwegian renewable energy firm, has signed a 25-year power purchase agreement (PPA) with the Egyptian Electricity Transmission Company (EETC) for a groundbreaking hybrid solar and battery storage project. The country was among the first in Africa to embrace renewables; Egypt had brought 555 MW of wind power generation online as early as 2012. Development stalled, though, as government support aligned. In 2023, Egypt's expenditure on imported liquefied natural gas (LNG) exceeded expectations by 1 billion USD, and analysts predict this figure will increase by tens of billions of USD by 2025. These are the top 5 solar energy projects currently taking place in the country: 1. These laboratory conditions provide a useful baseline for comparing products but don't capture the reality of a project site in Aswan or Benban, where cell.
