

PIENAAR ENERGY (PTY) LTD

Can solar container outdoor power for base station be used

Overview

Yes, a shipping container can be fully powered by solar energy, especially when equipped with a sufficient battery bank and properly sized solar array. When the grid is hundreds of feet away (or non-existent), a self-contained power solution is ideal. For instance, specialized units like the LZY-MS1 Sliding Mobile. Highjoule's HJ-SG Series Solar Container was built for one purpose: keeping base stations running where there's no grid power. It integrates solar PV, battery storage, backup diesel, and telecom power distribution in one standard container. That seemed like a great idea to put to use for all of my electric “toys”.
