Voltage range

**636V-876V**

Rated voltage

**768V**

Cell type

**Lithium iron phosphate**

## Characteristics of energy storage power stations

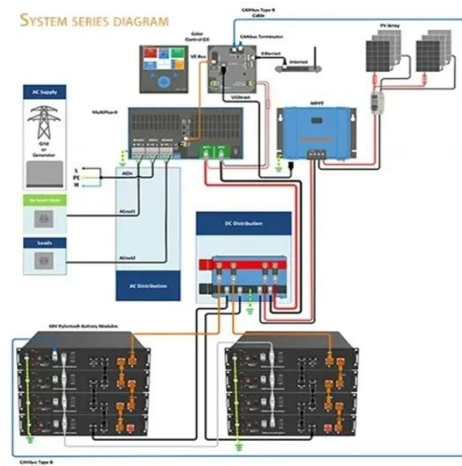

### Study on Statistical Characteristics of Battery Consistency in ...

Abstract: In the long-term operation of MW-level energy storage power stations composed of series and parallel connections, the inconsistency of battery cells will occur. Because the variation ...

### The development of energy storage power stations

Driven by China's long-term energy transition strategies, the construction of large-scale clean energy power stations, such as wind, solar, and hydropower, is advancing rapidly. Consequently, as a ...
