# **China all in one solar system in saudi-arabia**

## Overview

---

China Energy Engineering Corp Ltd announced on Tuesday it had inked a \$972 million deal for a major photovoltaic project in Saudi Arabia, marking a significant step as the Middle East nation becomes a key investment destination for Chinese solar power equipment. China Energy Engineering Corp Ltd announced on Tuesday it had inked a \$972 million deal for a major photovoltaic project in Saudi Arabia, marking a significant step as the Middle East nation becomes a key investment destination for Chinese solar power equipment. Energy China and PowerChina have secured \$4.3 billion of engineering, procurement, and construction (EPC) contracts for gigawatt-scale wind and solar projects in Saudi Arabia. Featuring a 400MW solar PV system coupled with a 1.3GWh energy storage system, this ambitious project is set to revolutionize sustainable energy solutions in the Middle East — the 2.6-gigawatt Al Shuaibah PV Power Plant in Saudi Arabia — was officially connected to the grid on January 15. Built by China Energy Engineering Group Co. The total contract value, equivalent to approximately RMB 19 billion. This project marks the latest in a series of significant China-Saudi renewable energy.
