

PIENAAR ENERGY (PTY) LTD

Commercial Street Solar Power Generation

LiFePO₄ Battery, safety

Wide temperature: -20~55°C

Modular design, easy to expand

The heating function is optional

Intelligent BMS

Cycle Life: ≥ 6000

Warranty: 10 years

Overview

This guide highlights five commercial-friendly solar generators and street-light solutions designed for offices, campuses, construction sites, and remote facilities. Each choice balances capacity, speed of recharge, and practical integration with daily operations. Across the United States, property owners are discovering what municipalities and commercial operators have known for years: solar street lighting technology has finally caught up to—and in many cases surpassed—traditional grid-powered systems in both performance and total cost of ownership. We sell clean energy directly to large-scale commercial businesses. Our on-site solar power generation provides these facilities with reliable, emission-free electricity. This article examines the fundamentals of solar energy, outlining the various types of solar systems available. Call us and Go Solar Today (239) 461-5522 If you are looking to buy now the most professional, commercial grade, high-power LED street light system complete with pole, our SL34 model is your ideal choice. Select any LED power from 35W to 135W and distribution from Type I to V.
