

PIENAAR ENERGY (PTY) LTD

Community uses a 60kW German photovoltaic folding container

Overview

Mounted on this frame is the innovative PV rail system and the clever folding mechanism of the solar panels, which enable the transport dimensions and lifting points of a standard 20ft high cube container, but still contain a maximum of highly efficient solar panels. Solarfold allows you to generate electricity where it's needed, and where it pays to do so. The innovative and mobile solar container contains 196 PV modules with a maximum nominal power rating of 130kWp, and can be extended with suitable energy storage systems.

Community uses a 60kW German photovoltaic folding container

Folding photovoltaic containers: Flexible and mobile solar power ...

Huijue Group newly launched a folding photovoltaic container, the latest containerized solar power product, with dozens of folding solar panels, aimed at solar power generation, with a ...
