## Overview

---

Companies like FabTech Services and We Recycle Solar specialize in refurbishing used panels, and other installers either sell modules to clients or donate them to charities. Selling locally helps minimize shipping costs and reduces greenhouse gas emissions, contributing to. The US National Renewable Energy Laboratory says that less than 10% of decommissioned panels in the country are recycled. This has given rise to solar panel recycling companies, safeguarding the environmental benefits of solar energy from improper disposal. Let us explore the top companies in this. If your modules are damaged on arrival, notify the driver immediately, notify carrier and LONGi staff within 24 hours of delivery, and provide a record with detailed information within 48 hours of delivery. See claims and warranties for full details. It's not only meant to transport PVs but also to unfold them on site. The efficient hydraulic system helps quickly prepare the Solar to work.
