

**PIENAAR ENERGY (PTY) LTD**

# **Congo DRC s largest energy storage battery project**

**All in one**  
**50-500 Kwh**  
**Hybird**  
**System**

## Overview

---

CrossBoundary Energy (CBE) is currently constructing one of Africa's most innovative renewable energy solutions: a solar photovoltaic (PV) and battery energy storage system (BESS) designed to provide dispatchable baseload power for Kamo Copper S. 's mining complex in the Democratic Republic of the Congo. Mining consortium Kamo Copper and IPP CrossBoundary Energy have agreed on a PPA providing baseload renewable energy for one of the largest copper mines globally, in the Democratic Republic of the Congo (DRC). The companies have signed the power purchase agreement (PPA) for 30MW of dispatchable. Key Figures & Findings: Kamo Copper, the operator of Africa's largest and fastest-growing copper mine, has signed a landmark baseload solar power agreement with CrossBoundary Energy. What does Kamo copper's 30 MW solar+storage project mean for Africa?

Kamo Copper's landmark 30 MW solar+storage project in Lualaba Province, DRC - Ivanhoe Mines has announced the installation of significant new backup battery energy storage capacity at its flagship Kamo-Kakula copper complex, further strengthening the mine's reliance on renewable energy. The Kamo-Kakula joint venture, operated in partnership with. r of those with advanced inverters. 72 billion) of battery projects in Australia are in the running to receive financial support fr able energy relies on large-scale energy storage.
