

PIENAAR ENERGY (PTY) LTD

Container energy storage refrigeration system

Overview

Sustainable, off-grid refrigerated containers designed to extend the shelf life of perishable goods, reduce waste, and empower businesses and farmers with cost-effective cold storage solutions—anytime, anywhere. Solar-powered reefers. The system is built with long-life cycle lithium iron phosphate batteries, known for their high safety and durability, making it a reliable choice for renewable energy generation, voltage frequency regulation, and energy storage in industrial parks or commercial buildings. As you witness the gentle humming of these compact powerhouses, it becomes clear that innovation isn't always about creating the new but also. Customizable secure container energy storage High security, more reliable, more intelligent, multi-scenario Four-in-one safety design of “predict, prevent, resist and improve” Strong coupling smart fire linkage No thermal runaway battery pack technology Modular design for demands of customization. Who Needs This Tech and Why Should You Care?

a shipping container that moonlights as a giant freezer, solar-powered battery pack, and temperature control wizard all in one. That's your modern container energy storage refrigeration system for you. These bad boys are turning heads in: When a major.

Container energy storage refrigeration system

To Strive forward No Energy Waste

- ✓ All in one
- ✓ 100~215kWh High-capacity
- ✓ Intelligent Integration

Cold Storage Product Range

Designed for high-performance, temperature-controlled cold storage, Solarators® operate as efficiently as industrial freezers and chillers--without the fuel costs, emissions, or grid dependency.

Containerized energy storage system , VREMT

Containerized energy storage is an Advanced, safe, and flexible energy solution featuring modular design, smart fire protection, efficient thermal management, and intelligent control for optimal ...

- LiFePO₄ Battery,safety
- Wide temperature: -20~55°C
- Modular design, easy to expand
- Wall-Mounted&Floor-Mounted
- Intelligent BMS
- Cycle Life:> 4000
- Warranty:10 years
