

PIENAAR ENERGY (PTY) LTD

Does solar power generation installation cost money

Overview

The average cost of solar panels ranges from \$2.50 per watt installed, with most homeowners paying between \$15,000 and \$35,000 for a complete system before incentives. Understanding these costs upfront helps you make an informed decision about going solar. Solar panel installation means adding a photovoltaic (PV) energy system to your home, mounted on your roof or property. System size, panel type, and labor needs are the biggest cost drivers, along with your roof's condition and any upgrades. Solar panels can sharply reduce your monthly energy bills. Enter your address and the cost of your most recent electric bill. Our estimator shows how many solar panels your home needs. We generate an online cost and savings estimate. You choose how many solar companies send you an exact price by email or text. Click on your state for solar panels cost.
