

**PIENAAR ENERGY (PTY) LTD**

# **Domestic battery cabinet air cooling**

## Overview

---

Closed-loop cooling is the optimal solution to remove excess heat and protect sensitive components while keeping a battery storage compartment clean, dry, and isolated from airborne contaminants. AZE's all-in-one IP55 outdoor battery cabinet system with DC48V/1500W air conditioner is a compact and flexible ESS based on the characteristics of small C&I loads. The commercial and industrial (C & I) system integrates core parts such as the battery units, PCS, fire extinguishing system. From peak shaving and emergency power supply to powering EV charging stations, our smart HIS- EMS seamlessly manages your energy needs. However, the electrical enclosures that contain battery energy storage. Efficient thermal management and advanced multi-level safety design extend battery life and ensure stable energy storage solutions tailored for commercial and industrial applications. · Advanced five-level safety system with fire warning and protection.

## Domestic battery cabinet air cooling

---

### 215 kWh LFP Air Cooled Battery System , HISbatt

HISbatt 215-A comes with an integrated cooling system (HVAC), a fire suppression system, and a power inverter installed with the safest LFP battery cells. Besides this, our cabinet housing is crafted ...

**Product Model**  
 HJ-ESS-215A(100KW/215KWh)  
 HJ-ESS-115A(50KW/115KWh)

**Dimensions**  
 1600\*1280\*2200mm  
 1600\*1200\*2000mm

**Rated Battery Capacity**  
 215KWH/115KWH

**Battery Cooling Method**  
 Air Cooled/Liquid Cooled

## Outdoor Battery Cabinet

Our outdoor battery cabinets are designed to withstand harsh weather conditions and provide reliable power storage for off-grid and remote locations. With advanced thermal management and safety ...
