

**PIENAAR ENERGY (PTY) LTD**

# **Dominican Republic s monocrystalline solar panel power generation**

## Overview

---

Consisting of three linked plants and over 280,000 panels, it will produce around 286 GWh annually, which is enough to power more than 166,000 homes. Source: PV Magazine LATAM. In this region, PepsiCo began its journey of harnessing solar energy in 2019 and, to date, has managed to reduce nearly 49 thousand tons of carbon dioxide (CO<sub>2</sub>) emissions in its manufacturing and transportation activities, which is equivalent to the total CO<sub>2</sub> emissions generated by approximately. On 2022, DOMINION completed the commissioning of El Soco photovoltaic solar park in the municipality of Consuelo, Dominican Republic. The energy deficit and dependence on fossil fuels drove the Dominican Republic to step up its commitment to clean energy. DOMINION took on the task of building the. Dominican Republic's energy sector shines with new solar projects led by Vice President Raquel Pena, boosting renewable capacity and exceeding daily demand. 6 MW Cotoperí Solar complex, developed by Acciona Energía and local investors. It is the largest PV installation in Central America and the Caribbean. From pv magazine LatAm The Dominican Republic has officially inaugurated Cotoperí Solar, the largest. The Dominican Republic is rapidly emerging as a Caribbean leader in the renewable energy transition, demonstrating remarkable progress in shifting its electricity generation towards cleaner sources. 8% by 2023, the nation has.

## Dominican Republic s monocrystalline solar panel power generation

---

### Dominican Republic will be the country with the largest solar power

The region's most ambitious solar panel project is at the Caribbean Plant in the Dominican Republic, which has 2,667 panels that generate 62,000 kilowatts per month.
