# **East Timor Hospital Uses 200kWh IP66 Photovoltaic Battery Cabinet**

## Overview

---

Dili, 23 October 2025 — In Timor-Leste, lifesaving medicines and vaccines are now safely stored day and night, thanks to a new solar energy system installed at the National Institute of Pharmacy and Medical Products (INFPM) in Dili. " Official handover of the solar power system to the Government of Timor-Leste, received by H. Samuel Marçal, Minister of Public Works. This ambitious project, set to begin construction in 2026, will not only supply clean energy to neighboring Indonesia but also marks a. As East Timor seeks sustainable energy solutions, photovoltaic power stations have emerged as a game-changer. Explore technical insights, regional comparisons, and implementation strategies in this detailed analysis. The 72 MW project in Manatuto, developed jointly by Japan's Itochu Corp and France's EDF, will also feature a 36 MW battery energy storage system to ensure stable and.
