

## PIENAAR ENERGY (PTY) LTD

# East Timor Off-grid solar Energy Storage Project

## Applications

Electric motorcycle

Electric Forklift

Electric Boat

Golf Cart

RV

Audio Equipment

Solar Street Light

Household Energy Storage

Energy Storage System

## Overview

---

East Timor to build its first 72 MW solar plant with 36 MW storage in 2026, reducing diesel reliance and advancing clean, affordable energy access. Will Timor-Leste's first solar power project integrate with a battery energy storage system?

In a landmark moment for Timor-Leste's energy future, a Power Purchase Agreement (PPA) has been officially signed for the country's first-ever solar power project integrated with a Battery Energy Storage. East Timor is embarking on a major clean energy milestone with the construction of its first large-scale solar power plant in 2026. East Timor plans to retire its diesel power plants in the "near-to-medium term". East Timor expects the construction of its first large. East Timor, officially known as Timor-Leste, is poised to make a significant leap in renewable energy with confirmed plans to construct a 200 MW solar power plant. Explore technical insights, regional comparisons, and implementation strategies in this detailed analysis. Hybrid systems combining solar panels with energy storage systems (ESS) are already being piloted in Oecusse district, showing 90% reliability improvements.
