

**PIENAAR ENERGY (PTY) LTD**

# **Egypt Enterprise Energy Storage Project**

## Overview

---

The hybrid system will integrate 1 GW of solar PV with 600 MWh of BESS. When it reaches commercial operation in June 2026, it will be the largest single-site renewable energy and BESS facility in Africa, according to its developers. The 300-MWh Abydos BESS project, which is aligned with a 500-MW solar power facility, makes the site near Aswan in southern Egypt home to the country's first utility-scale integrated solar-plus-storage installation. Courtesy: Trina Storage Energy storage also has entered the picture. Amea Power began construction before financing was completed. Dubai-headquartered, MENA-focused renewable energy company Amea Power has announced the successful financing and. Dubai-based developer Amea Power has agreed to build a 1 GW solar plant with a 600 MWh battery energy storage system (BESS) and an additional 300 MWh BESS. Meanwhile, Norwegian developer Scatec ASA has signed a 25-year power purchase agreement (PPA) for a 1 GW solar array and 100 MW/200 MWh BESS in. The European Bank for Reconstruction and Development (EBRD), African Development Bank (AfDB), and British International Investment (BII), the United Kingdom's development finance institution and impact investor, are providing a total of US\$ 479.
