# **Electric vehicle costs lisbon**

## Overview

---

The short answer is yes — if you want to save on fuel, reduce your carbon footprint ☑☑, and enjoy access to a growing charging network. This guide covers everything you need to know about renting an EV in Portugal: availability, prices, charging, routes, and insider tips. E, for 2026, by means of ERSE's Directive nº 12/2025, 29 of December. The decision is based on the document "EGME Tariffs and Revenues 2026", which analyses in detail the regulated activity's. We found that despite considerable progress—with around 42,000 EVs sold in 2023, a 92% increase from 2022, and approximately 130,000 fully electric vehicles in the national fleet—Portugal will not meet its carbon neutrality targets by 2050 even if all new vehicles sold from now on are electric. ✂ Why Choose an Electric. The adoption of electric vehicles is proving to be a promising solution to achieve this goal, and specifically, reductions in the transport sector emissions. These incentives are provided by the Portuguese Tax Authority. IUC (Annual Road Tax) - Exempt from payment (subparagraph e) of paragraph 1, Article 5, Annex II of the Vehicle Tax Cod. An average electric car consumes 15 to 20 kWh per 100 km.
