Overview

This comprehensive training aims to equip professionals with the skills needed to work safely and effectively with electric and hybrid vehicles. Kitts and Nevis (WINN): Electric vehicles are more likely to become a mainstay in St. Kitts and Nevis when major infrastructural changes take place, including multiple charging stations. Importantly, plans have already begun to take shape, beginning with an Electric Vehicle (EV) Policy that is. Hybrids and electric vehicles (EVs) are essential components of a sustainable transport system that reduce dependence on fossil fuels and minimize greenhouse gas (GHG) emissions. Hybrid vehicles combine a conventional internal combustion engine (ICE) with an electric propulsion system, offering. Basseterre, St. Kitts, 7th April 2025 - CARILEC, the leading association for electric utilities in the Caribbean, has partnered with Green Solutions International SKN Inc (GSI SKN) to deliver a cutting-edge Electric Vehicle (EV) Training Programme in St.

Product Model
 HJ-ESS-215A(100KW/215KWh)
 HJ-ESS-115A(50KW 115KWh)

Dimensions
 1600*1280*2200mm
 1600*1200*2000mm

Rated Battery Capacity
 215KWH/115KWH

Battery Cooling Method
 Air Cooled/Liquid Cooled
