

**PIENAAR ENERGY (PTY) LTD**

**Encourage all citizens to  
generate solar power**

## Overview

---

The most powerful way for governments to encourage households and businesses to go solar is through initiatives and policies. They put policies in place to prevent fossil fuel and greenhouse gas emissions. Department of Energy Solar Energy Technologies Office and the National Renewable Energy Lab, highlights new technologies and strategies for maximizing the benefits of solar for all communities and emphasizes strategies for improving the equity of solar deployment. While solar technology continues to advance and costs decrease, millions of Americans still face significant barriers to accessing its benefits. Through innovative financing models, targeted solar education programs, and inclusive policy frameworks, we're witnessing a powerful shift toward. SolSmart is a national designation program that helps local governments produce clean energy locally, which leads to energy independence, clean air and lower energy costs. A tour of the La Loma Community Solar Farm in Austin, Texas.
