

PIENAAR ENERGY (PTY) LTD

Energy storage container distribution box factory

Overview

Enter energy storage containers for factories —the Swiss Army knives of industrial power management. These 20- to 40-foot steel boxes packed with batteries aren't just backup generators; they're reshaping how manufacturers dance with electricity prices and carbon footprints. Our dedication to quality and reliability has earned us a reputation as preferred suppliers in the electrical industry. Delivers constant output and high round-trip efficiency (>90%) with intelligent scheduling. Easy to scale in parallel for microgrid systems or multi-energy projects. The containerized configuration is a single container with a power conversion system, switchgear, racks of batteries, HV C units and all associated fire and safety equipment inside. It can be deployed quickly to expand existing power. Our prefabricated container is designed for rapid rollout. Over 90% of electrical wiring, equipment installation, and testing is completed at the factory, ensuring that once delivered to site, your system can be operational within days. Our products are designed to meet the growing demand for energy storage, offering you a competitive advantage in today's market.
