

**PIENAAR ENERGY (PTY) LTD**

# **Energy storage ratio of power stations in east asia**

## Overview

---

This report was prepared by the Working Group for Analysis of Energy Saving Potential in East Asia under an energy research project conducted by the Economic Research Institute for ASEAN and East Asia (ERIA) in 2021–2022. LCOE is typically used to assess the cost of electricity from different power plant types. In this analysis it has been transferred to storage technologies and therefore the term LCOS is used. technologies in terms of average cost per produced/stored kWh. As the power system evolves and the role of. The report offers the market size and forecasts for energy storage in revenue (USD billion) for all the above segments. Image © Mordor Intelligence. Reuse requires attribution under CC BY 4. 4GW of new installed capacity in 2024 to reach a total of 435.
