Overview

On May 12, 2020, the New York Public Service Commission (PSC) approved the draft implementation plan for the New York State Energy Research and Development Authority's (NYSERDA) bulk energy storage program—with a number of changes. This bulk storage program will provide. The Darden Clean Energy Project will support California's progress to 100% clean electricity, strengthen grid resilience, create local jobs and invest in communities while proving that large-scale clean energy projects can move quickly under the state's new accelerated permitting process. The roadmap is as follows:

- Our attorneys stay on top of changes in legislation, agency regulations, case law, and industry trends—then craft timely legal alerts to keep clients up to date on legal developments important to their business. Located on a. Developments will address grid reliability, long duration energy storage, and storage manufacturing

The Department of Energy's (DOE) Office of Electricity (OE) is pioneering innovations to advance a 21st century electric grid.
