

PIENAAR ENERGY (PTY) LTD

Estonia s first batch of new energy storage projects

System Topology

Overview

Baltic Storage Platform, a joint venture (JV), has broken ground on two new 200MW/400MWh battery energy storage systems (BESS) in Estonia. The JV between Estonian energy company Evecon, French solar PV developer Corsica Sole, and asset manager Mirova will develop the 2-hour duration systems, with. A unique 400 MWh battery complex is taking shape in Estonia, marking one of Europe's largest energy storage projects. When it comes to energy, compact Estonia thinks big. The country, aiming for a full-fledged green transition, is building unique infrastructure to bring this moment closer. Estonian state-owned energy company Eesti Energia has inaugurated the nation's largest battery energy storage facility at the Auvere industrial complex in Ida-Viru. KIISA, ESTONIA - Febru- The Baltic Storage Platform (BSP) - a joint venture between Baltics leading renewable energy developer Evecon, French independent solar power producer Corsica Sole, and sustainable investment manager Mirova - today officially inaugurates the Hertz 1 battery. Baltic Storage Platform JV—a French-based independent solar power company, Corsica Sole, and Estonian major renewable energy developer Evecon, alongside Mirova, a group of the Natixis Investment Managers that specializes in sustainable investments—managed to finance the two battery energy storage. Construction has begun in Estonia on two energy storage facilities with a total capacity of 200 MW and 400 MWh. On Thursday, a symbolic groundbreaking ceremony took place for the project, which aims to support the region's energy stability and accelerate the transition to renewable energy sources.

Estonia s first batch of new energy storage projects

Estonia moves forward with a groundbreaking energy storage complex

The EUR100M project, led by Baltic Storage Platform, will deliver some of Europe's largest battery storage complexes with a combined capacity of 200 MW and a total storage capacity of 400 MWh, putting ...
