Fengjun 5 generator replacement process

Overview

This video demonstrates the proper and safe way to disassemble a generator and how to access parts that may need to be tested and/or replaced. Let's break down the process like we're explaining it to a particularly curious golden retriever - clear, methodical, and with zero room for squirrel distractions. Allow 45-60 minutes cooldown post-shutdown. Genuine Cummins Onan replacement parts are recommended for best results. The generator set or sets included in this manual are not ignition protected and shall not be used included in a. 5 steps in removing the rotor and the end bell (end cap) of an electric motor with a bearing retaining snap ring. Removing the internal snap ring using a snap ring plier. Should I Sell Off My Generator or Dispose of It as Scrap?

It depends on the condition of the generator.
