Overview

Masdar, one of the world's leading renewable energy companies, has signed a joint development agreement (JDA) with Turkmenenergo State Power Corporation of the Ministry of Energy of Turkmenistan (Turkmenenergo), to develop a 100 megawatt (MWac) solar photovoltaic (PV) plant, which. Masdar, one of the world's leading renewable energy companies, has signed a joint development agreement (JDA) with Turkmenenergo State Power Corporation of the Ministry of Energy of Turkmenistan (Turkmenenergo), to develop a 100 megawatt (MWac) solar photovoltaic (PV) plant, which. The country's first power plant operating on renewable energy sources will be built on the territory of the Serdar etrap of the Balkan velayat. due to solar and wind energy, with a total installed capacity of 10 MW. The “green” energy facility will be built in accordance with the Action Plan. Turkmenistan President Serdar Berdimuhamedow announced at the Halk Maslahaty meeting that the multi-purpose solar and wind power plant built in the Gyzylyarbat district will soon be inaugurated. The operation of the power plant is expected to start by January 2024. China has unveiled the world's first dual-tower solar thermal power station in the Gobi Desert, using 27,000 mirrors to generate renewable energy round the clock, a landmark in clean energy innovation.
