General price of household solar lights

Overview

Pricing for residential solar lights typically ranges from \$15 for basic units to over \$200 for high-end models. The average can vary based on specific features, construction materials, and technology. Not everyone is ready or able to install rooftop solar panels or rig up a solar-powered water heater at home. But if you want to reduce your utility costs and your reliance on the grid, swapping out ordinary lights and other appliances for their solar-powered counterparts is one of the simplest. Solar lights are great for any home because they are environment- and budget-friendly. They also don't need to be plugged in and won't run up your electric bill.
