Hairun Photovoltaic Third Board Market

Overview

After its 2018 delisting from the Shanghai Stock Exchange, Hairun's journey resembled a photovoltaic Icarus - flying too close to the sun of rapid expansion before crashing into debt-laden waters. Their Third Board move reveals three tactical maneuvers: . Picture this: A once-dominant solar company, battered by financial storms and regulatory headwinds, chooses to reinvent itself through China's National Equities Exchange and Quotations (NEEQ) - the so-called "Third Board. " That's precisely what Hairun Photovoltaic did in 2024, turning heads across. The bulk photovoltaic effect (BPVE), sometimes also called the photogalvanic effect (PGE), refers to the electric current generation in a homogeneous material under light illumination, in contrast to the traditional photovoltaics where a heterojunction, such as a p-n junction, is needed to separate. When Hairun Photovoltaic applied for listing on China's New Third Board in 2024, industry watchers immediately recognized this as more than routine corporate maneuvering. External factors such as wind speed, incident structural design and act as shades [209a?
