## Overview

---

The NEMA 3 / IP55 Outdoor Cabinet is engineered to protect critical equipment in harsh environments, making it ideal for telecom base stations, traffic control systems, energy monitoring, and industrial automation. The cabinet contains internal mounting rails, which allow installation of standard 19" equipment. Built with durable materials and reliable design, they are perfect for safeguarding your hardware in tough outdoor conditions. Designed for long-term reliability, it provides a controlled and secure enclosure that ensures stable operation for base stations. An IP55 outdoor cabinet offers reliable protection against dust ingress and water jets from any direction, making it ideal for a wide range of external applications.
