

**PIENAAR ENERGY (PTY) LTD**

# **High-efficiency solar energy storage cabinet for tunnels**

## Overview

---

An Outdoor Photovoltaic Energy Cabinet is a fully integrated, weatherproof power solution combining solar generation, lithium battery storage, inverter, and EMS in a single cabinet. It supports dedicated applications such as optimization of photovoltaics with self-consumption, peak shaving, backup power and EV charging infrastructure. Featuring lithium-ion batteries, integrated thermal management, and smart BMS technology, these cabinets are perfect for grid-tied, off-grid, and microgrid. SOFAR Energy Storage Cabinet adopts a modular design and supports flexible expansion of AC and DC capacity; the maximum parallel power of 6 cabinets on the AC side covers 215kW-1290kW; the capacity of 3 battery cabinets can be added on the DC side, and the capacity expansion covers 2-8 hours. A simple power switch, for instance, often accompanied by a green indicator light, allows users to easily verify operational status. Sustainable, high-efficiency energy storage solutions. Sounds like sci-fi?

Well, it's already happening. Energy storage in underground tunnels is revolutionizing how we manage electricity grids, offering solutions for renewable energy's biggest.
