

PIENAAR ENERGY (PTY) LTD

Hillside photovoltaic panel installation bracket

Overview

Steel Pile Ground Solar Mounting System is designed to mount 4, 6, 8 or 10 panels each pole which delivers effective, flexible and long-term durable. Strong and load-tested Penetrators simplify installation of ground-mounted solar panels and arrays. Our popular solar ground screws replace concrete footings for anchoring. MRac slope (hillside) ground solar mounting system is suitable for slope concrete roof or slope land solar PV projects, with strong wind load and snow load resistance. Ground-mounted solar panels are mostly installed in flat open area, but flat topography is not. Solar mounting systems are essential in anchoring your solar power system to a fixed point, such as the ground, a roof, or a pole, etc. For Unirac and ground-mount orders, please email sales@mrsolar. The components include four fixing brackets, two adjustable brackets, and screws.

Hillside photovoltaic panel installation bracket

Solar Ground Mounting System for Slope (Hillside)

MRac slope (hillside) ground solar mounting system is suitable for slope concrete roof or slope land solar PV projects, with strong wind load and snow load resistance. The mounting system can achieve minor ...
