

**PIENAAR ENERGY (PTY) LTD**

# **Home batteries can use solar energy storage batteries**

## Overview

---

Most batteries use lithium-ion technology. They work together to supply power when the grid fails or when rates are high. A solar battery helps store solar energy for later use. This provides blackout protection, greater energy independence, and reduced reliance on utility companies. With this in mind, there is no single “best” battery.

## Home batteries can use solar energy storage batteries

### Solar and battery storage

It's simple: solar batteries can store the surplus energy and power your home with it once the sun sets, reducing or even eliminating your need for grid power overnight.
