

PIENAAR ENERGY (PTY) LTD

How is it for photovoltaic factory panel lifters

◆ **PRODUCT INFORMATION** ◆

The image shows a tall, grey metal cabinet for an Energy Storage System. The cabinet has a white door on the right side with a small digital display and two buttons. The text "Energy Storage System" is printed on the door. At the bottom of the cabinet, the model number "DW-ESS-100P-200" is visible. A red emergency stop button is located on top of the cabinet.

-  **BATTERY CAPACITY**
50kWh~500kWh
-  **DC VOLTAGE RANGE**
400V~1000V
-  **DEGREE OF PROTECTION**
IP54
-  **OPERATING TEMPERATURE RANGE**
-10-50°C

Overview

The device uses your existing fiberglass Werner or Louisville extension ladder. A pulley system is attached to the top of the ladder. With Solar panel lifters are essential tools that help streamline the process of transporting and installing photovoltaic (PV) modules on roofs. Panels are fragile, expensive, and easily damaged. A patented module “hook” attaches to the edge of a PV module frame and. Alum-a-Lift is pleased to provide engineered material handling solutions to the solar, power, and energy industries. The standard chassis offers proven lifting power and allows for heavier and dynamic side loads. Specially designed with a custom carrier that functions as a cargo receptacle.

GRADE A BATTERY

LiFePO4 battery will not burn when overcharged, over discharged, overcurrent or short circuited and can withstand high temperatures without decomposition.
