## Overview

---

Bureau of Labor Statistics (BLS), the median annual wage for wind turbine service technicians was \$61, 770 in 2023. Turbine owners receive payment from the energy consumer, whichever utility company buys their generated power. And the median salary is \$60k?

That seems pretty low compared to technicians in other energy fields that have certainly less physical work and seemingly less required knowledge. Is there something I am missing here?

I am in California so maybe that skews my view about what reasonable compensation. The average salary for Wind Power employees is around \$92,580 per year, or \$45 per hour. The highest earners in the top 75th percentile are paid over \$104,514. Individual salaries will vary depending on the job, department, and location, as well as the employee's level of education, certifications. The salary of wind turbine workers varies significantly based on factors such as job title, experience, location, and the specific employer.
