# How long does it take to review the drawings of photovoltaic brackets

## Overview

---

Expect 2–4 weeks for review, with some areas taking up to 8 weeks (Exactus Energy). Once permits are approved, your system must be safely. How long does it take your firm to review and respond to contractors' construction submittals?

While many design professionals and construction managers as advisor (CMA) endeavor to respond promptly, it is also quite common for submittal review and response times to be inordinately long. This. How long does it take for a plan review to be completed?

Both the Ohio Building Code (OBC) and Residential Code of Ohio (RCO) mandate that plan review must be completed within 30 days of receipt of a completed application, OBC/RCO §107. Our reviews are typically completed well under this. A successful solar project in the U. starts long before panels hit the rooftop. It begins with detailed site assessments, accurate system sizing, and precise permit-ready drawings that meet evolving code and utility requirements. Others allow for plus/minus a certain percentage of annual usage.
