

**PIENAAR ENERGY (PTY) LTD**

# **How much does a photovoltaic 440 panel cost**

## Overview

---

Today's premium monocrystalline solar panels typically cost between 30 and 50 cents per Watt, putting the price of a single 400-watt solar panel between \$120 to \$200, depending on how you buy it. Reduced installation cost since fewer panels are required to cover electricity needs. Increased durability thanks to smaller cell size and therefore reduced probability of microcracking. 440 watt solar panel price is generally a bit higher than the price of most popular panels. Most homeowners spend between \$12,600 and \$33,376 to install a complete residential solar system in 2026, with the national average at \$19,873 before incentives. Your actual cost depends on your home's energy needs, roof characteristics, location and other factors, all of which we'll break down in. Pay \$619. 50 after \$50 OFF your total qualifying purchase upon opening a new card. Return this item within 90 days of purchase. Department of. Enter your address and the cost of your most recent electric bill Our estimator shows how many solar panels your home needs We generate an online cost and savings estimate You choose how many solar companies send you an exact price by email or text Click on your state for solar panels cost.
